There is a little confusion in the positions in the Year 5 boys race. The boy in 4th place managed to slip past without receiving his certificate, which meant that the positions between 5 and 11 received a certificate that was one place out. The raffle ticket was the correct position, but if the recording was made off the certificate, it will be one place lower than the actual finishing position. I have no way of checking, but it might be that Team Managers might remember the discrepancy. I was able to correct one, as it was written on the back of the score card as well. The Team positions in that race were very close, but I don't think it would have altered the outcome at all.

Thank you for your continued support

Next race March 2nd
